

Serial No. 10/208,581

REMARKS

Claims 1-14 are present in the above-captioned application and have been subjected to restriction under 35 U.S.C. §121 as follows:

I. Claims 1-12, drawn to a medical device, an implant coated with a matrix, classified in class 128, various subclasses, and class 427, various subclasses.

II. Claims 13 and 14, drawn to a method for treating restenosis comprising the administration of a therapeutic dose of a combination of rapamycin and 2-methoxyestradiol, classified in class 514, subclasses 31 and 182.

Applicants elect Group I, corresponding to Claims 1-12.

Respectfully submitted,

/Carl J. Evens/
